MEMORANDUM FOR: Chief, Audit Staff

SUBJECT: Classification of Regulatory Issuances

REFERENCE: (a) Regulation No. [] Classification of Official Information and Material
 (b) Regulation No. [] Control of Dissemination and Use of Intelligence and Information

25X1A

25X1A

1. Referenced regulations prescribe policies and procedures concerning the classification, control, and documentation of Agency information and material.

2. A preliminary review indicates that downgrading or declassification of many regulations is appropriate. At the present time, approximately 75% of our regulations are classified "Secret"; 17% are classified "Confidential", and the remainder are protected by the use of control stamps or are unclassified. The content of the regulations does not seem to justify this degree of secrecy. We believe that many regulations could be downgraded or declassified to "Confidential" and "For Official Use Only."

3. It is requested that a review be made of Regulation No. [] Audit of Funds and Property, with the objective of determining the appropriateness of the classification assigned. It would appear that this Regulation could be given a classification lower than "Secret."

ATTENTION: Executive Assistant, [REDACTED]

STATINTL

SUBJECT: Downgrading of Regulatory Material [REDACTED]

REFERENCE: DD/S 59-5070

STATINTL

1. Per your request, I have reviewed the propriety of downgrading or declassifying Regulatory Material [REDACTED]. In applying literally the various classification definitions as appear in [REDACTED] I would recommend the following downgrading/declassification to be in order:

STATINTL

STATINTL

Downgrade to CONFIDENTIAL
Remain SECRET
Downgrade to CONFIDENTIAL
Declassify to "CIA INTERNAL USE ONLY"
Downgrade to CONFIDENTIAL
Downgrade to CONFIDENTIAL
Downgrade to CONFIDENTIAL

2. Although this Office is of the opinion that [REDACTED] should remain SECRET, since this is a Cable Secretariat publication, the ultimate decision must be theirs.

STATINTL

3. Since, however, in nearly every case, the above Regulatory issuances make references to other Agency Components, I do not consider it appropriate that any definite downgrading action be taken without the concurrence of the affected components.

4. I know that Military Regulations on such subjects as cryptographic clearances are classified no higher than CONFIDENTIAL; it would seem logical that the same standards should apply within this Agency.

5. From my observations, I feel that the trend toward overclassification is not restricted to Regulatory Material. It appears that the vast majority of all documents, cables, dispatches and memorandums could bear a lower and more realistic classification designation. I recommend that this be considered at the same time and together with the review of regulatory issuances.

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Classification of Regulatory Issuances

REFERENCE : Memorandum from the Executive Assistant to the Deputy Director (Support) to the Comptroller dated 13 December 1959, file DD/S 59-5070, same subject.

1. This memorandum contains a recommendation for DD/S approval in paragraph 3.

2. Reference submitted a list of 46 regulations of primary concern to this Office and requested a review thereof relative to downgrading of the present defense classification. The downgraded or declassified control deemed appropriate by this Office is stated on the attached list. In determining such classification, the classification categories outlined in [] have been applied as well as the controls envisioned by [] as a further guide in selecting an appropriate classification, those regulations which state policies or permitting practices under the special authorities of Public Law 119, which are of vital interest relative to programs, plans, financial arrangements, or administrative practices which, if disclosed, might jeopardize intelligence operations, have been retained in the "Secret" category, while those which relate to matters of less value or not of vital interest concerning intelligence matters have been classified "Confidential." Those not considered within the foregoing categories have been assigned control designations under the provisions of [] namely, "CIA Internal Use Only" or "For Official Use Only."

3. This Office recommends adoption of the control designations set forth on the attached.

E. R. SAUNDERS
Comptroller

MEMORANDUM FOR: Executive Assistant to the DD/S
SUBJECT: Classification of Regulatory Issuances
REFERENCE: Your Memo dtd 18 Dec. '59, same subject.

1. You question the classification of six regulations which fall within the general jurisdiction of the Management Staff. These are dealt with herein.

2. It seems sensible that if we propose to change a classification by re-printing a regulation, we ought at the same time bring the regulation up-to-date as needful and/or appropriate.

3. These six regulations are dealt with in the progressive order in which you have submitted them.

MEMORANDUM FOR: Chief, Management Staff

SUBJECT : Classification of Regulatory Issuances

REFERENCE : Memo dtd 7 Jan 60 to EA-DD/S fr C/Mgt Staff,
same subject.

1. We recognize the desirability of bringing regulations up to date, as pointed out in paragraph 2 of your memorandum. However if we applied this principle across the board we would aggravate the problem because we would then have many regulations on the books which would carry classifications entirely out of line with similar or related regulations. This matter was discussed with Colonel White, after we received responses from all the Support Components, and under the circumstances he indicated that he thought it would be best for us to go ahead and issue a notice covering all regulations irrespective of their present status.

2. This being the case, we would appreciate receiving your recommended classifications for Regulations [] and without any revision in text to Regulation []. With respect to [] would there be any objection if we used "For Official Use Only" as the control stamp rather than "CIA Internal Use Only"? We have obtained the Comptroller's recommendation for [] and the Director of Personnel has requested that you recommend the proper classification for [].
